

Chaplains of Both Services Have Troubles.

(From The Tribune Bureau.)

Washington, July 19.—The court for naval "sky pilot" chaplains, Harry W. Jones, U. S. N., will probably be brought before a naval court. Charges have been filed with the Navy Department alleging misconduct and an indifference to financial obligations on the part of the chaplain. Jones, who entered the navy in 1896, and is the officer who, several years ago, was involved in some correspondence with an unknown person who had solicited such advances through newspaper personal. It so happened that this letter, which contained a sum of money as an evidence of good will, found its way to the Dead Letter Office, and was sent to the Navy Department. The chaplain's explanation was that he was investigating sociological conditions, and he was permitted to resume his duties with a note of admonition. The chaplain's explanation was that he was investigating sociological conditions, and he was permitted to resume his duties with a note of admonition. The chaplain's explanation was that he was investigating sociological conditions, and he was permitted to resume his duties with a note of admonition.

REGIMENTAL CHAPLAIN QUILTS—Chaplain H. T. Brockmann, 25th Infantry, on duty at Fort Douglas, Utah, has tendered his resignation, and it will be accepted, to take effect some weeks hence. Chaplain Brockmann has been in the army for several years, and belongs to the Lutheran Church. He gave as his reason for wishing to be separated from the military establishment that he was not able properly to support himself and his family on his salary. The resignation was accepted, and a resignation on this account, although there are many instances where officers have complained that they could not make both ends meet on their pay. Indeed, the War Department has been seriously considering some measure by which the extra expenses of officers may be saved. It was with this idea in view that authority was obtained from Congress to furnish the quarters of officers with articles of heavy furniture.

OKLAHOMA BATTLESHIP PRIZE WINNER—The Navy Department is greatly pleased with an incident which occurred at Oklahoma City. The petty officers and enlisted men of the navy on duty at the naval recruiting station at that place, prepared a float representing a battleship, with turret, guns, smokestack and bridge, and added it to a parade which took place on the Fourth of July. There were sixty competitors, and the naval exhibit gained the first prize. The model of the ship was duly christened with a small bottle of champagne, the sponsor being the little daughter of a leading citizen. The exhibit was advertised by the Board of Trade as a big attraction, and the model, which was named the United States ship Oklahoma, attracted much attention. The Mayor, who was competing for the hospital, had the float brought around under his window, and made a speech of congratulation and personally presented the prize.

SEVERE SENTENCE FOR DESERTER—The military authorities have been giving their attention to a case which has attracted much interest. It has to do with an enlisted man of the 5th Infantry who in 1904 stole some property from a fellow soldier and disappeared a few days after the theft. He was apprehended in a week or two in Plattsburg, N. Y., and was brought before a military court on the charge of larceny and desertion. While the trial was in progress he escaped, but that of escaped convict. The other day he was recaptured and is now in confinement in Port Monroe, Virginia. He will be sent to Fort Jay, where he will be imprisoned for a period dating from the time of his recent arrest.

CRUISERS COMING HOME.

Four Big Ships to Leave Cavite for San Francisco Soon.

Washington, July 19.—The armored cruisers West Virginia, Colorado, Pennsylvania and Maryland, of Admiral Dayton's Pacific fleet, are expected to start from Cavite for the United States in ten days or two weeks. They may stop on the way at Japanese ports, but this, it was stated at the Navy Department today, is optional with the officer in command. It is extremely unlikely, however, in view of the fact that the vessels are to come home by way of Honolulu.

The movement is made in accordance with orders issued a month ago and made public by the bureau of navigation at that time, and is simply to put into effect the plan of the department to form the Pacific fleet on lines similar to that of the Atlantic fleet, that is made up of the various divisions. The four ships named are to form one of the cruiser divisions of the Pacific fleet.

The four ships are now in the vicinity of Cebu, China, where they have been engaged in target practice. This practice on the Pennsylvania has been delayed by the appearance of a case of smallpox on that vessel. The whole division will be ordered to leave Cebu on July 24. Here some changes are to be made in the personnel of the crews, and various stores are to be taken aboard. The run will then begin for San Francisco. It is said to be possible that the Pennsylvania may carry on her way from Che-Foo to Cavite to take on coal.

The four ships form the midstay of Admiral Dayton's Pacific fleet now in Asiatic waters. Their withdrawal will leave few American naval vessels of any great consequence in that section of the world, and in effect means the practical transfer of the headquarters of the Pacific fleet to American waters. If Admiral Dayton returns to San Francisco on his flagship, the West Virginia, the department is anxious that these ships have a long cruise, and that they may engage in some of the maneuvers with the ships now on the Pacific coast. The present expectation is that they will be ordered to Magdalena Bay to take part in the summer target practice of the vessels attached to Admiral Swinhorne's second squadron of the Pacific fleet.

Another division of Admiral Swinhorne's squadron of the Pacific fleet will be stationed at Cavite.

ALLEGED POSTOFFICE ROBBER CAUGHT
Man Wanted at Oakland, Cal., Arrested on Island of Nantucket.

Boston, July 19.—Paul B. Turner, a former clerk in the postoffice at Oakland, Cal., after many months of wandering, was arrested as a fugitive from justice at Nantucket to-day by James Ruhl, Deputy United States Marshal. Turner is alleged to have robbed the Oakland postoffice of nearly \$800 last December. He was taken before United States Commissioner Goodspeed in New Bedford on the charge of larceny of government funds. He pleaded not guilty, and the case was held in \$2,000 bail. He will be brought to this city, and through the United States District Attorney's office here will ultimately be transferred to the jurisdiction of the United States Court for the District of California. Turner's alleged offence consisted in stealing a package of government money order funds to the extent of \$803 from the Oakland post-office.

HATS MADE OF PAPER.
By treatment with fish gelatin the resistance to moisture has been so heightened that woven stuffs can be repeatedly washed and do not suffer from exposure to the elements. An interesting application of paper at Verviers is that of the manufacture of hats. In imitation of ordinary straw headgear and of the more costly Panama hats. The results are said to be very satisfactory.—Baltimore American.
